

TRINITY Biomedical, INC.

"Saving lives...one device at a time"

At **Trinity Biomedical, Inc.** we have assembled a medical manufacturing team to handle your most critical component demands. We have created a one stop manufacturing solution that can take a product from inception through packaging with a speed to market timeline matched by few. With years of experience supporting the medical device industry, our personnel produce world class products at a cost effective price.

To meet the highest standards of quality, in 2007 Trinity developed a state-of-the-art US Fed STD 209E class ISO-6/ISO-7/ISO-8 cleanroom dependent on your products manufacturing needs. Trinity is also supported by quality certifications **ISO 9001:2008** and **ISO13485**, as well as **AS9100** compliant.

All of our employees are actively involved with "World Class/Lean Enterprise," a program of continuous improvement. For maximum efficiency, we practice 5-S and operate with a "Total Quality Environment" for the ultimate in medical cleanroom manufacturing.

Our clients benefit from Trinity's Rapid Response program and dedication to the medical industry. Here at Trinity, our team will create cost effective solutions for your component manufacturing problems.

Trinity Biomedical Capabilities:

- 52,000 sq. ft. manufacturing facility
- Class 1,000 - 100,000 cleanroom capability
- CNC Wireforming, Springs and all wire products
- Ultrasonic Washing & Citric Passivation
- Cleanroom device assembly & custom packaging
- Wire EDM - 5 axis
- Dynamic Waterjet cutting
- 3D CNC Machining
- CNC Turning
- Medical Stampings, Fixtures, Gauges
- CMM Lab Inspection
- Reverse Engineering
- Product Research and Development
- Cleanroom Systems Automation design/build
- Warehousing & Distribution
- Rapid Prototyping for Manufacturability
- Complete Project Management
- 2D/3D Design with Solid modeling
- Lab testing - Particulate, Non-Volatile Residue

"When outsourcing your critical component or device, let Trinity's team of experts bring you world class results. We welcome you to tour our facility."
